IoT - Internet of Things

Deploying modern age data technologies to streamline business processes.

OUR ENGAGEMENT MODELS

We understand that all the projects have different requirements and thus we provide them with various engagement methodologies.

FIXED PRICE

The fixed price model is ideal for urgent or small-sized projects. it fits perfectly for the projects that have limited scope with clearly defined specifications which would hardly change.

TIME AND MATERIAL

Time and material are best suited for mid-sized, complex, and long-term projects. it's ideal for projects which require support & maintenance at the bug fixing or testing stage.

DEDICATED TEAM

Dedicated team approach is best suited if you're looking for a long association on complex project that will begin from scratch. This is best suited for projects that fall under sphere of Fintech & blockchain technology.

OUR TOP INDUSTRY COLLABORATIONS

Oakter offers internet-enabled, plug-and-play home automation solutions. Universal App-controlled products for lights and appliances enable control with voice devices like Alexa, and Google. COVID safety equipment. Their team is focused on delivering the best quality products at the best price while ensuring delight in the customer experience.

Naxtre is the official employability Partner for Oakter for the past consecutive year.

Infinite assist clients from various industries in optimizing, modernizing, and scaling their technology landscape. They helps customers successfully morph into this future by accelerating connectivity, creating new talent models, and driving the adoption of cognitive technology and embedded AI to help enterprises deliver superior experiences for their consumers.

Naxtre is the official vendor of Infinite for the past consecutive year.

OUR SOLUTION

Naxtre provides the right techno-solution to satisfy your needs right from IoT, Cloud, Wearables, Mobile & Web Application Development. We take care of all technology implemented while you are focusing on the core business functions.

Grocery Delivery Solution

A new way to shop grocery before you prepare that scrumptious meal, easily buy all the ingredients that you need to prepare that delicious meal.

Smart Restaurant Solution

A wide range of freshly cooked food is delivered to your doorstep. This on-demand food delivery app is famous for Cajun Seafood.

Advancing sustainable energy

We built this platform working on technologies & enabling digital transformation required to accelerate the energy transition towards a carbon-neutral future.
